## Mitosis

When you're in the ring, if you're good, you know that the real deal is not to get hit. One hit - that's all it takes. One good hit and you're out.

Now look at me. There's no boxer in the world that could mangle me up the same way that stuff in the yellow barrels did. There isn't a word for what I've become. Sometimes I think there's a whole jungle up my ass. It's disgusting.

So mark my words, it's not so complicated - one good hit, and you're out. Look at me, now: one good hit is all it took.

And now - I'm out.
